BBR Strengthens Shipping Operations with Launch of New Tugboat and Barge

Jakarta, August 11, 2026 - PT Bahtera Bumi Raya Tbk ("**BBR**" or the "**Company**") announced the successful launch of **SENTOSA 24001**, a new tugboat, and **SENTOSA 3301**, a new deck cargo barge, on August 04, 2026, marking a further expansion of the Company's marine transportation capacity.

Both vessels were built in 2026 and are owned by PT Samudera Sejahtera Shipping, a subsidiary of BBR. SENTOSA 3301 has a payload capacity of approximately 12,000 metric tons, providing additional capacity for the Group's logistics operations.

The vessels will support BBR's marine transportation activities in key operating areas across Indonesia, serving the transportation needs of its customers and business partners.

The fleet expansion is aligned with BBR's strategy to grow its shipping business and develop an integrated logistics platform supporting its mining and trading activities.

Management said, "The launch of SENTOSA 24001 and SENTOSA 3301 reflects BBR's continued investment in expanding its marine transportation capacity. The additional fleet will support the operational needs and provide greater flexibility in serving customers. Going forward, BBR remains focused on optimizing fleet utilization, maintaining strong safety standards, and delivering sustainable growth across the shipping and logistics businesses."
